COMPREHENSIVE SECURITY

Our Daview AMS server acts as a conventional receiver. Daview AMS gives you total control over your facilities and integrates directly with leading alarm management software.

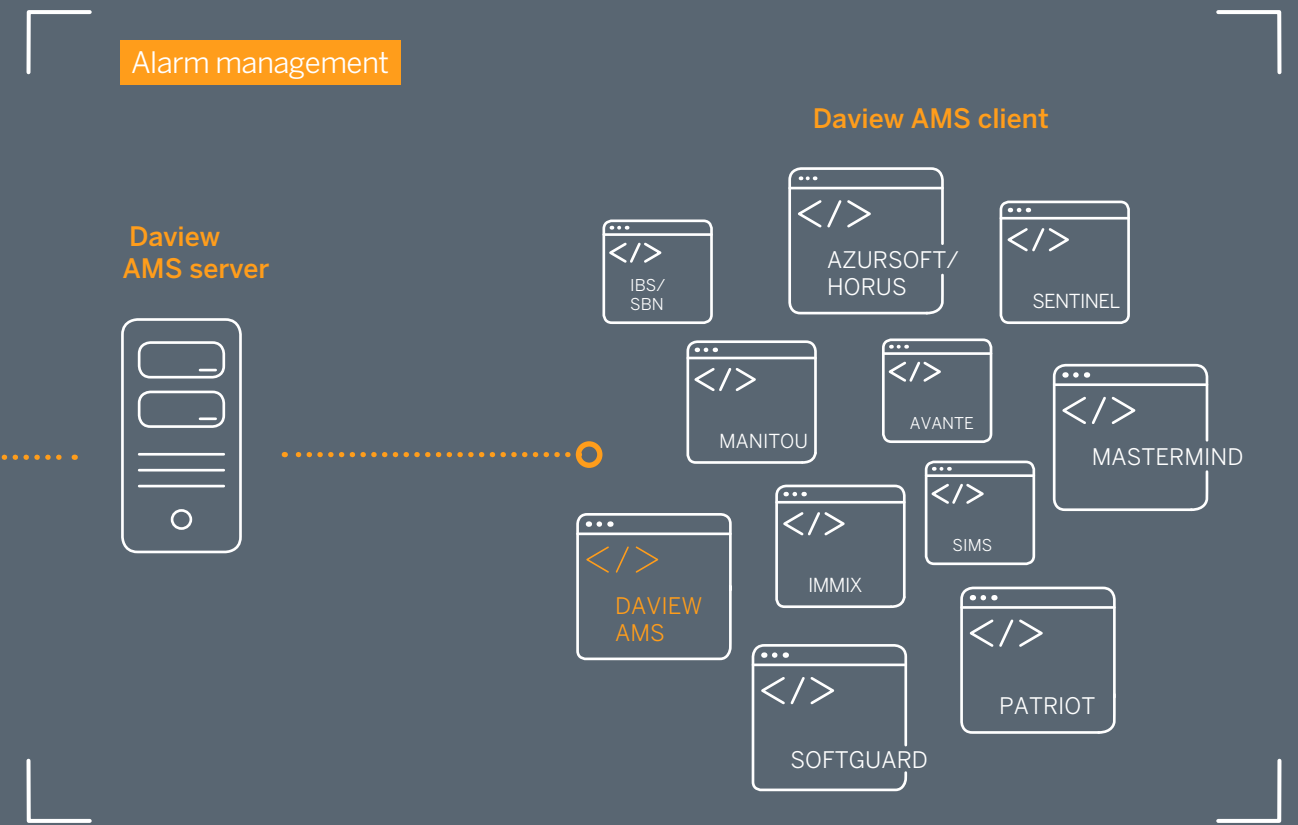

Maximum compatibility

We are compatible with any alarm management system. We offer solutions to monitoring, autonomous system and those integrated into conventional alarm management systems.

Daview AMS allows you to:

- View alarms with ClickThru™ technology
- Direct observation through cameras
- Pooling - Connection supervision
- Receive technical alarms
- Remote relay activation
- Bidirectional audio to communicate with installations
- Network and server redundancies

No limits

With daview AMS there's no need for the control centre to replace the alarm management software they have. Our AMS integrates with any system without competing with existing software.
