

## Low cost ANPR cloud SOLUTION

No software install. Access through Cloud  
or SDK.

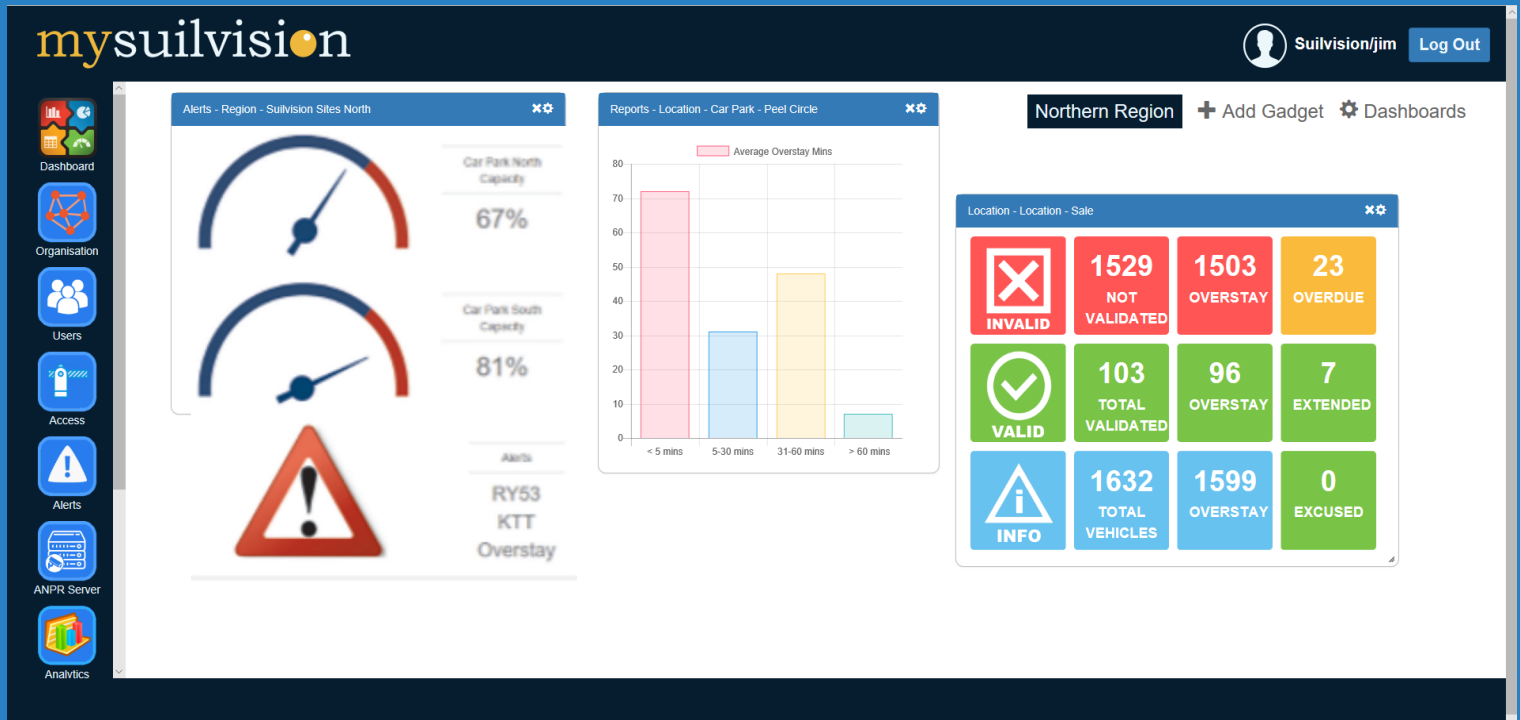

OCR engine and database offsite.

Secure Servers

Unique Plate tracker

Low Cost PCB front end

The Dashboard allows a user to create a mash-up of functionality, data as real time figures, reports or charts and quick navigation links to the system as required

Overview of locations and incoming data

Alerts

Navigation into the system

Key figures and overview charts

User created view

Quick links into functional areas

View on figures of interest and charts in real time

The ANPR Server page provides the full history of all the ANPR events across your estate. With built in search facilities it is easy to find & track vehicles across a number of sites within specific dates.

Recent Alerts will be displayed which include, overstay, visitors, hot list vehicles and also custom alerts set by user

The screenshot shows the 'ANPR Reads' section of the mysulvision interface. It features a table with columns for date, location, direction, count, vehicle type, license plate, and camera status. Below the table are three panels: 'Overview Image' showing a car, 'ANPR' showing a license plate image and result, and 'Recent Alerts' which is currently empty.

Date	Location	Direction	Count	Vehicle Type	Plate	Camera Status			
16/11/2017 13:34:03	GU04HDC	Sale Gate in/out	Towards	3	Lightning	5906CD2F-39CF-4320-9A6E-B3C86FCF3214	Sale Entry/Exit	Sale Entry/Exit camera via database server	-- Empty --
16/11/2017 13:26:28	LT65OVV	Sale Gate in/out	Away	3	Lightning	5906CD2F-39CF-4320-9A6E-B3C86FCF3214	Sale Entry/Exit	Sale Entry/Exit camera via database server	-- Empty --
16/11/2017 13:15:17	DN61OWJ	Sale Gate in/out	Towards	3	Lightning	5906CD2F-39CF-4320-9A6E-B3C86FCF3214	Sale Entry/Exit	Sale Entry/Exit camera via database server	-- Empty --
16/11/2017 13:13:36	MJ59WWP	Sale Gate in/out	Towards	3	Lightning	5906CD2F-39CF-4320-9A6E-B3C86FCF3214	Sale Entry/Exit	Sale Entry/Exit camera via database server	-- Empty --
